

HOW TO HANDLE THE AFTERMATH OF A FLOOD: IMPORTANT TIPS (PART 2 - MOTOR VEHICLE)

Keep calm. Check the water level to assess the extent of vehicle damage and ensure your safety.

Do not try to start the engine, as this could lead to more damage to engine parts or cause a short circuit that could harm the battery and other electrical components.

Carefully inspect your vehicle to determine the full extent of the damage.

Contact your insurance company to notify them about the mishaps and your intention to file a claim.

Take a picture of your vehicle, and lodge a police report as soon as possible.

To file a claim, you must provide the following documents:

- Police report
- Registration card
- Photo of vehicle
- Driving license
- Identity card

You might have to fill out the claim form once the documents have been submitted.

IN THE EVENT OF A FLOOD, GIVE PRIORITY TO YOUR SAFETY. REMEMBER TO FOLLOW THE ABOVE TIPS/GUIDE.
